

MARIANO MORGANTI

WEB DEVELOPER

Nijmegen, Netherlands | [Linkedin.com/in/marianomorganti](#) | mmorganti86@gmail.com | (+31) 0627599802 | [Github.com/Morganti86](#) | [Portfolio](#)

Over 10 years of experience in the banking, telecommunications, and media-entertainment industries. Successfully led merchant acquiring, credit card accounting, billing and collection systems, achieving significant improvements in operational efficiency. Results-oriented with a strong background in Agile methodologies, problem-solving and data analysis. Driven and enthusiastic professional, excited to transition into a Web Developer role and contribute to innovative projects.

WORK EXPERIENCE

[Santander Technology](#) [Banking]
Scrum Master/Team Leader

Buenos Aires, Argentina
August 2019 - September 2022

- Led the merchant acquiring and credit card accounting systems, implementing Agile methodology for over 10 team members and stakeholders, resulting in a 20% reduction in project delivery time.
- Optimised operational processes through the development of APIs and databases, reducing operational tasks by 60% and minimising errors.
- Implemented automated dashboards and daily, weekly and monthly reports, achieving a 30% reduction in administrative workload.
- Managed the successful implementation of over 5 critical regulatory changes introduced by the central bank, ensuring regulatory compliance and operational efficiency.

[Fox Networks Group](#) [Entertainment]
Project Leader

Buenos Aires, Argentina
January 2016 - August 2019

- Achieved over 50% reduction in daily manual work within financial operations.
- Coordinated the development, implementation, and maintenance of the billing and collection system, introducing electronic invoicing to streamline processes and enhance accuracy by 100%.
- Served as the primary contact for stakeholders, designing and implementing solutions that ensured high service standards and a consistent user experience for over 500 users across over 20 countries.

[Telecom \[Accenture\]](#) [Telecommunications]
Senior System Analyst

Buenos Aires, Argentina
June 2008 - January 2016

- Led application support for the collection system, optimising Mainframe COBOL processes to achieve an 80% reduction in cancellations.
- Resolved over 50 incidents and information requests monthly by conducting root cause analyses, executing tests, and generating detailed ad hoc reports using DB2/SQL and Excel.
- Mentored over 5 junior developers, fostering their skill development and career growth within the team.
